Maitreyi & Khushi
Our Favourite Story

“We created this special Manchester United themed wallpaper for 12 year old Uddhav Bhagat. A student of Heritage School, he is a fan as ardent as one you could get. Every day he would come to our office from school and sit and choose images of his favourite players. And God help us if mid-way a player retired or another decided to change his haircut. He would insist we redo the entire thing all over again! After all the iterations, the final product was one we all loved!”
“Saksham Diwan breathes, eats and sleeps cricket. His parents wanted to make sure that his room captures his fervour for the game. We went all out. We did a special shoot of him playing in the Indian cricket jersey. And we really tried our best to capture his imagination on paper. One end of the room had Virat Kohli batting. And the other end had Saksham bowling. The wardrobes in between were made to look like a packed stadium. His parents added a green turf-like rug on the floor. He was thrilled with the outcome.”
"Daksh and Naisha were given a design that encapsulates their love, sibling fights, their hobbies, mantras, goals, favourite quotes, icons and much more. It tells their story and anyone who enters their room is immediately connected to their world. This is a truly special one!"
Our Favourite Home

“They had one clear mandate – we want our photo collage in our bedroom - no children’s photos please. It was their sacrosanct space and they wanted to cherish that. We did a romantic photo-shoot of them together. The wallpaper design was the right combination of mush and love.”
“We deal in all kinds of spices and were very clear that we wanted our head-office interiors to signify this. Friendlywallz used different spices such as cinnamon, mustard and chilli and developed individual designs. The spices were tastefully highlighted in different parts of the office – from the cabins to the lobby. We highly recommend them.”
Gaurav Sharma, Director, Sunrise Spices
